The Hughes' Printing Telegraph In-strument Finished.

We are gratified to learn that this wonderful invention has, at least, received its finishing touch, and will be placed upon the line between this city and Philadelphia. We are assured, upon undoubted authority, that the machines, so far as it has been possible to test them thro' a coil of wire 100 miles in length, have realized the most sangoine expectations of Mr. Hughes and his friends, and there appears to be no reason to doubt but that the invention will speedily work an entire revolution in telegraphing throughout the world. This invention may be called a Printing Press and Telegraph Instrument combined, for it prints all messages in plain Roman capitals, with unerling correctness, and at an almost incredible rate of speed, averaging, in the ordinary dispatch of business, from 20,000 to 25,000 letters per hour. our. The Hughes instrument clearly demonstrates The Hughes instrument clearly demonstrates the practicability of sending, and receiving measages in opposite directions over the same wire at the same instant of time, and with the utmost case, regularity and certainty. It will consequently require but one wire and one operator, at any given point, to send and receive as much business as can be transmitted by the aid of four or five operators, and an equal number of wires under the Morse system. Another, equally important, peculiarity connected with the Hughes invention is the undoubted fact it will work perfectly in very long circuits, and with unerring accuracy in all states of the atmosphere—neither mist, rain, nor enow, having any perceptible effect upon it. Therefore, at seasons when the Morse and House instruments are utterly powerless, even in circuits of fifty miles, there is every reason to believe that the Hughes instrument will work reliably in circuits of one or two thous-

will work reliably in circuits of one or two thousnd miles.

The simplicity and durability of the new ma-The simplicity and durability of the new machine will compare favorably with the Morse, and is wastly superior in these respects, to the House instrument. The governing principle of this invention is wholly disemilar to that of the Morse, House, and all other telegraph instruments and, consequently, there can be no difficulty on the score of the patent, which, we understand, has been sold for about \$125,000 or \$150,000 to the beon sold for about \$125,000 or \$150,000 to the American Telegraph Company,—a new association having its head quarters in this city, but composed of gentlemen of the highest respectability, residing in different sections of the United States and the British North American Provinces, and of which it is sufficient to say that Peter Cooper, Esq., is the President, and Wilson G. Hunt, Esq., Treasurer.

A HUMILIATING FACE.—In a speech made before the Hamilton Co. (0.) Republican Convention, Judge Hoadly, late a prominent democrat,
said: "If General Washington was alive to-day,
and were to utter the sentences contained in his
will, with reterence to his slaves, and resident in
the Tenitory of Kansas, he would be consigned
to the Penitentiary for two years under the Pierce
Administration. Administration.

NEXT TO GULLIVER.—Fillmore is still on his travels. It was reported that he was about to visit the Holy Land to see the Sepulchre, but it is ascertained that he is coming home for that; one was lately built for him at Philadelphia, considerably bigger than that of Cheops. When he returns he will also see the Elephant.—Lockport Music in Austria.—An Austrian political economist has calculated that with the annual money paid in salaries to the prime donne of Vienna, "a hundred square miles of marsh-land might be turned into fruitful corn-fields." The professor forgets that, nevertheless, the singers, by their swent voices, do their best to cultivate the finest ears.—Punch.

It adds, if possible, a still darker

The House would do honor to itself, and satisfy the universal expectation of the people, if it should adopt the Committee's report without debate, and by a unanimous vote.

The spirit of indignation which mineates the people of the Old Bay State, in view of the recent pro-slavery outrages, may be inferred from the action of her Legislature noticed in our last evening's telegraphic report. Our Kansas correspondent sends us a graphic

picture of matters in that unhappy territory, confirming previous accounts, and fastening the responsibility of the villainous and wanton outrages in Lawrence upon Sheriff Jones and his Federal backers. Omo and New York both held numerously at-

tended Republican Conventions on Wednesday last. Everywhere the spirit of the Free North is rising for the coming struggle. The Federal guillotine was brought to bear,

Republicans to Your Posts! The Republicans of Milwaukee are invited to meet in their several Assembly Districts this evening to choose two Delegates from each to repre sent them in the Republican State Convention which assembles in Madison on Wednesday next. Upon this Convention will devolve the responsible duty of selecting Delegates to the National Republican Convention which meets at Philadelphin on the 17th day of June, to nominate candidates for President and Vice President of the United States. It is highly desirable that Wis consin should be represented in the Philadelphia Convention, by firm, unflinching, reliable friendof the Republican cause and of Freedom in Kunsas; and to this end it is important that good and true men be sent to Madison. We invoke therefore, the attendance of all true Republicans at the District gatherings to-night, and urge them to select sound and judicious Delegates to the

For the first time in the history of the Republic, an American Senator has been assaulted and stricken down in his place, and when lying, prostrate, bleeding and insensible on the floor of the Senate Chamber, brutally beaten by his cowardly and ruffian assailant, while sympathizing friends stood by, to see fair play. No language can do justice to the utter atrocity of this assault. It was base, brutal, assassin-like, inhuman, and infamous. The perpetrator should not have been suffered to retain for a ringle day after such an offence, his place and privilege as a Member of Congress. Nothing short of his instant and unanimous expulsion could atone for BO grievous a wrong. The Assault on Schuter Summer—Veto of the improvement Bill—Kansas Al-fairs—Presidential Speculations. WILLARD'S HOTEL,

Messas, Editors: -But one theme can properly occupy my letter to-day, for it is in all hearts and mouths here, and I trust and believe will excite equal feeling throughout the country. The brutal and cowardly assault by Preston S. Brooks, hate Oppression; as you would cheek the strides Mr. Senator Summer, of Massachusetts, is the near at hand that it is hardly worth while to speca member of the House from South Carolina, upon and curb the power of Slavery; as you would de- only topic of conversation, overshadowing for the time the English difficulties, and even the startling accounts from Kansas. The telegraph will have made you acquainted with the main facts, but no version has appeared, or can appear, which will do full justice to the cowardice, the ruffianism, the revolting brutality of the whole offair.

Fortunately, interference-the' too late to provent very serious personal injury-saved Mr. Summer's life; for while utterly stunned and incapuble of resistance from the effects of the first totally unexpected blow, his tuitian assailant continued beating him over the back of the head, until he was pulled off by one of the members of the House.

Mr. Sunmer was seated, with pen still in hand, when struck by his assailant, a man over six feet in Leight and of thoroughly developed form and muscle. He was armed with a heavy gutta perbreast the dirk which, for a portion of the session at least, he has been known to carry. Perliaps it is fortunate for Mr. Summer's hie that the
first blow itninged him, for had he been capable
of offering any resistance, in all probability the

it was he was carried of 'sureal as and carried."

Mr. Sunner may be well enough to appear and give his testimony. Both Houses of Congre-s, however, have thought it due to their own character to appoint Committees to enquire into and report the facts, together with such action as in their judgment the law requires. In the Senate, no opposition was made, but in the House, the " Democracy" generally, with the Southern Know Nothings,

did everything in their power to retaid and pre cent may action As in the Herbert case-when the poor Irish

waiter was killed-the party which styles itself par excellence the "Democratic" party, united n defence of their associate in resisting all attempts at enquiry; but this time the friends of equality, of justice, of law and order, the true iends of the people, were in sufficient force to insist upon an examination, and a Committee was appointed which will shirk no responsibility, and leave no duty unfulfilled. To say that one general fieling of indignation

exists here in the minds of all fair-minded and ionorable men, is only stating what is clearly evident; and coupled with this is the conviction that this matter of brutal violence has been carried quite too far, and must now be met, coute mi conte. The assault on Greeley by Rust of Arkansas, the murder of Keating by Herbert of California, and this last brut il attack upon Mr. Summer by Brooks of S. C., have awakened feeling not easily to be abated; and, I hardly can be mistaken in believing, will lead to the gnominious exputsion of Brooks from the House which he has disgraced and outraged. And yet there are men here-of his own stamp it mus be concluded—who not only justify, but applaud him for his chisalry, (I believe that is the term by which such ruffianism is designated,) and dineers have been given him, and tonsts drauk in his honor, and speeches made in his praise, tor an act which would disgrace the most brutal of friends of Freedom ! remember it all MES, who deserve to be called such, that in the exercise of his constitutional nights, for "words spoken in debate," for which by the highest law of the hand no Senator can be held to account, or held responsible, in reply to the most insolent, repented, and blackguard attacks, not only upor

dinself, but upon the State he represents, and the friends of freedom everywhere, this outrage has been committed upon Mr. Summer as one of the leading champions of the cause of humanity, of freedom, and of equal rights to all men! The accounts from Kansas represent a very hreatening state of affairs there, and it is difficult to see how a collision can be averted. A resolution was introduced into the House yesterday, that the Sergeant at-Arms be sent at once to arrest Judge Lecompton and Marshal Donaldanswer for an offence against its power and dignity, in attempting the arrest of Gov. The following is the statement of Mr. Sumner

I attended the Senate as usual on Thursday,

a message was received from the House of Rea message was received from the House of Representatives, announcing the death of a member of that body from Missouri. This was followed by a brief tribute to the deceased from Mr. Geyer of Missouri, when, according to usage and out of respect to the deceased, the Senate adjourned at once. Instead of leaving the Senate Rijourned at once. Instead of leaving the Senate Rijourned with the rest of the Senators, on the adjournment, I continued in my seat, occupied with my pen, and while thus intent, in order to be in season for the mail, which was soon to close, I was approached by several persons who desired to converse with me, but I answered them promptly and briefly, excusing myself for the reason that I was much engaged. When the last of these persons left me I drew my arm chair close to my desk, and with my legs under the dask these persons left me I drew my arm chair close to my deek, and with my legs under the desk continued writing. My attention at this time was so entirely drawn from all other subjects that though there must have been many persons in the Senate, I saw nobody. Other persons there were about me offering me friendly assistance, but I did not recognise any of them. Others there were at a distance, looking on and offering no assistance, of whom I recognized only Mr. Douglas of Illinois, Mr. Toombs of Georgia, and I thought also my assailant standing butween them. I was helped from the floor and conducted into the lobby of the Senate where I was placed upon a sofa. Of those who helped me here I have no recollection.

As I entered the lobby I recognized Mr. Slidell of Louisiana, who retreated, but I recognized no one else until I felt a friendly grosp of the hand, which seemed to come from Mr. Campbell of Ohio. I have a vague impression that Mr. Bright, President of the Senate or in the

The Condition of things in Congress tieneral Webb, of the New York Courier d Enquirer, one of the most conservative journals in the country, in a long and able article upon the assault upon Mr. Sumner, says:

To attempt to describe the actual state of af-fairs here in the Capitol of the Nation would be a hopeless task. It would not be believed were one from Heaven to proclaim it trumplet-tongued through the land; and yet no one can live here as I have for the last six menths, without feeling his blood bell at utinessing the tears and apprahis blood boil at witnessing the tears and appre our Northern men, if any one ventures openly and manfully to speak the truth in the bar rooms, great men in the country, who can unite the free state men and scenre their confidence in them as leaders.

They are overbeating, threatening, and defiant in their manner; and our people have definit in their manner; and our people have been overawed and cowed. Sumner, a man of peace, ventured to been dithem, and we parceive his fate. Wilson put them at defiance; but at the same time he put pistols in his pocket, and publicly declared that he held his person sacred from assault! Greeley carried a revolver during the latter part of his sejourn here; and them, and then only, even he was no longer molested, and since the brutal assault on Mr. Sammer, two-thirds of the Anti-Nebraska members of Conthirds of the Auti-Nebraska members of gress, and all who claim and exercise the light of free speech as distinct from abusive language or a bullying, theatening manner, have arrived at the conclusion that the time has come when tisa duty they owe allke to themselves and to the country, to assert, and it necessary to vindle cate this great constitutional privilege, and to be in a situation at all times, effectually to protect themselves from the Bully and Assassin. Literature is decidedly dying out in France.—
None but the hopeful, invincible Lamartine even
thinks of making a struggle to earn a living by
the pen. He, too, is ruined once more. This
time, it is feared, beyond reparation; but not
by literature—by wine! not the drinking it—
there is not a more temperate man in the would
than Lamartine; but by selling it. He reckoned
upon the duty being lowered for the English
market, bought up all the Macon he could by
his hands on, trusted, and was undone. pondent of a London paper says:

The Vaticas.—The word is often used, but there are many who do not understand its import. The term refers to a collection of buildings on one of the seven hills of Rome, which covers a space of 1,200 feet in length, and 1,000 feet in breadth. It is built on the spot once occupied by the garden of the cruel Nero. It ower its origin to the Bishop of Rome, who in the early part of the sixth century erected an humble residence on its site. About the year 1,160, Pope Eugenius rebuilt it on a magnificent scale. Innocent II., a few years afterward, gave it up as a lodging to Peter II., King of Arragon. In 1605, Clement V., at the instigation of the King of France, removed the Papul See from Rome to Avignon, when the Vaticau remained in a condition of obscurity and neglect for more than
